

TECHNICAL DATA

| Model | TB300SD | TB900SD |
|-------------------------------|----------------|----------------|
| Max. Torque | 400 Nm | 950 Nm |
| Idle speed | 0-120/min | 0-43/min |
| LxWxH (mm) | 285 x 58 x 220 | 315 x 68 x 220 |
| Weight (excl. torque support) | 3.8 kg | 4.6 kg |
| Square drive | 3/4" | 3/4" |

EQUIPMENT

- Case
- 2x Li-Ion batteries 5.2 Ah
- 1x Charger with quick-charging function
- Torque chart
- Operation manual

ADDITIONAL ACCESSORIES

Slip-on torque supports

- Square socket
- Material: Steel, hot dip galvanised
- Rubber handle

Telescopic extension

- Length: 790 mm – 1400 mm
- Stainless steel rod
- Operating socket: 27/32; 12/14 (malleable cast iron, electrolytically galvanised)
- Machine connection: 3/4"

URvolution counter

- 4-digit LCD-Display
- Lithium battery
- IP54
- Maintenance free
- Reset-button

TORQUE WRENCH

torcbrain

torcbrain

torque wrench

KETTLER-torcbrain meets all requirements of a mobile and handy electrical torque wrench. It can be used for communal as well as industrial inspection and maintenance work.

KETTLER-torcbrain is power sourced by a rechargeable Li-Ion battery and can generate up to 400 Nm or 950 Nm of torque. All wrenches are maintenance free and may be equipped with a telescopic drive rod, cardan joint, hand wheel adaptors and a variety of torque supports. All insets are available in rust-proof materials.

LIGHTWEIGHT CONSTRUCTION

By using high-quality components and gearbox parts which are mounted on anti-friction bearings, KETTLER-torcbrain is simply smaller and lighter than other torque wrenches.

EXTRA LARGE TORQUE AND RPM RANGE

The planetary gearbox, 4-speed selection and a delicate drive regulation system make KETTLER-torcbrain faster and more powerful when it really matters. Without juddering or vibrations KETTLER-torcbrain torque wrenches turn off on the spot.

MAXIMISED MOBILITY

KETTLER-torcbrain is equipped with two powerful Li-Ion batteries by default, that allow for constant operation during your daily routine while mains adaptors remain available on request. Li-Ion power and lightweight construction in combination with a swivelling actuation device make KETTLER-torcbrain one of the most flexible devices on the market.
